

# Burn

Shane W. Cadman

11.5.13

6/8 Eighth Note = 162

**INTRO: Bm | Bm | Asus | Asus | F#m | F#m | G | G ||**

**Bm**                    **Bm**  
There's a small fire  
**Asus**                    **Asus**  
Deep down inside  
**F#m**                    **F#m**  
Wind and rain all around  
**G**                                **G**  
I try to keep it alive

**Bm**                    **Bm**  
I hide it away  
**Asus**                    **Asus**  
Sheltered from the storm  
**F#m**                    **F#m**  
It seems so insignificant now  
**G**                                **G**  
It barely keeps me warm

**PRE-CHORUS:**    **Em7**                    **Em7**  
But somehow I know  
                                 **F#**                    **F#**  
That it needs to be more

**CHORUS:**    **Bm**                    **G**  
I want burn for You  
**D**                                **A**  
So I can shine for You  
**Bm**                    **G**  
I want burn for You, Jesus  
**D**                                **A**  
So I can shine for You  
**Bm**                    **G**  
I want burn for You, Lord  
**D**                                **A**  
So I can shine for You  
**Bm**                    **G**  
I want burn for You  
**D**                                **A**  
So I can shine for You

# Burn

Shane W. Cadman

11.5.13

**Bm**                      **Bm**  
It's a little brighter now  
**Asus**                      **Asus**  
When You're here with me  
**F#m**                      **F#m**  
Keep close by my side  
**G**                                  **G**  
And help me to see

**Bm**                      **Bm**  
Don't let me hide it away  
**Asus**                      **Asus**  
Or hold on too tightly  
**F#m**                      **F#m**  
Fan the flame in my heart  
**G**                                  **G**  
For all the world to see

**PRE-CHORUS:**    **Em7**                      **Em7**  
But still I know  
                         **F#**                                  **F#**  
                         That it needs to be more

**CHORUS**

**INSTRUMENTAL: Bm | G | D | A | (4x)**

**CHORUS**
